

## **PRESS RELEASE**

### **Snelling Web Development Launches New Website for 2016**

**Snelling Web Development, one of the nation's foremost leaders in the website design & development field, celebrated its 16th anniversary with the announcement & launch of their new website today.**

Las Vegas, NV - Snelling Web Development, one of the nation's foremost leaders in website design & development for more than 16 years, is pleased to announce the launch of their new website. The new website continues their design leadership in developing responsive, mobile-optimized websites that adapt for optimal viewing on PC monitors, laptops, tablets, smart phones & other mobile devices.

The primary services provided by the firm include Custom Website Design, E-commerce Store Web Design, and Marketing Design & SEO, giving clients a complete solution depending upon their goals.

#### **Features of the New Website**

The new Snelling Web Development website is a dramatic, elegant & modern responsive website design that is a uniquely handcrafted, professional-grade example of what can be done with the latest web technologies and standards in use with today's modern web browsers for all devices.

#### **Modern Websites from Las Vegas, NV**

The firm is composed of highly skilled website development experts, specializing in designing & developing feature rich custom websites. Their websites are for clients who appreciate exclusive individuality and modern, high-quality, hand-crafted custom websites & business design services to advertise their brand, services, or products, as well as market them in an e-commerce store.

An extensive offering of website design options and web services are available for businesses to choose from for a website solution that will help them grow their brand and their business with the latest web design technologies.

#### **Responsive & Mobile-Optimized Websites and Ecommerce Stores That Sell Your Brand**

Responsive websites are the latest cutting-edge technology advancement in website design that automatically adapt so that they look great to customers on smart phones, tablets, laptops, and PC monitors. The firm provides the latest technology features that can immediately help businesses connect with their customers and take advantage of the SEO rankings boost that search engines give to mobile-optimized websites.

## **About Snelling Web Development**

Founded in 1999 and located in Las Vegas, NV, Snelling Web Development is a privately held firm specializing in providing a wide-range of custom website design & development and marketing design solutions for small business, organizations, and the government sector. We are passionate about high quality, precision-driven custom website design & development.

We have the experience to understand the Internet needs of the business and organization markets, as well as the U.S. government sector. Our products & services are designed to minimize costs while delivering solutions that exceed the client's expectations.

We build an ongoing relationship with our clients and provide them with a single source for Internet solutions, website design & updating and marketing design solutions, and further development as their needs grow well into the future.
